Science - We will be developing our enquiry skills this term in our two science topics:

- Living things and their habitats - using classification keys to identify unknown plants and animals.
- Electricity - constructing simple series circuits, with and without switches, and investigating common conductors and insulators.

Computing -

- Animation (Using Purple Mash 2Animate)
- Effective Searching
- Hardware Investigations
- Using search engines and key words for research about the Viking way of life.

RE - We will be enquiring into the Nature of God, asking:

What was the impact of the resurrection on the people involved in Jesus' life?
What would it be like to experience Pentecost? How would this make you feel?
What makes you think this?
How did the events of Pentecost change the disciples?
Did Joseph have an easy life?
What does the story of Moses tell you about the character of God?
How can Christians today learn from the life experiences of Old Testament's forefathers?

Music - We will be showing Community Spirit when we all work together to perform.
