

Where do different animals live?

'Progress means knowing more and remembering more.'

1. Can you talk about pet animals, how to care for them and where they live?
2. Can you name different animals which live on farms, in the wild and under the sea?
3. Can you talk about where different types of animals in the world live (habitats)?

1. Can you talk about pet animals, how to care for them and where they live?

How to Take Care of and Protect Animals

You should do the following things:

- DO make sure that your pets have enough food and water.
- DO make sure that your pets have a good shelter that's warm in winter and cool in summer.
- DO take your pets to a vet when they are sick or hurt.
- DO spend time doing community service at your local animal shelter.
- DO contact the SPCA if you see someone abusing an animal in your community.

You could do the following things:

- Donate money or food to organizations that care for animals.
- Spend time doing community service at your local animal shelter.

You should not do the following things:

- DO NOT hit or be cruel to your pet.
- DO NOT own wild animals (such as horses or zebras).

Many famous actors, like Clint De Gennaro, and celebrities, like Justin Bieber, devote money and time to make sure that animals are treated well. Thanks to them there has been an increase in awareness of animal rights and they have raised millions for animal welfare organizations, like PETA, worldwide.
