

**TANKERSLEY C of E (A)
PRIMARY SCHOOL**

WHOLE SCHOOL FOOD POLICY

***“Guide me in your truth and teach me, for you are
God my saviour and my hope is in you all day long.”***

We aim high and have self-belief

We have community spirit

We are enterprising

We have enquiring minds

We are respectful

Updated September 2022

Statement of intent

At Tankersley St Peters, we understand that what pupils eat and drink at school is important. We aim to teach pupils about food and nutrition through the curriculum and reflect these principles in the school's food menu and cooking provisions.

We acknowledge the important connection between a healthy diet and a pupil's ability to learn effectively and achieve high standards in school. We also acknowledge that we can play a key role in supporting the wider community to adopt a positive attitude to a healthy lifestyle.

As part of our healthy eating and living campaign, our catering will uphold the highest standards of quality, nutrition and cleanliness; adhering, without exception, to the food standards and legal obligations. As such, this policy has been implemented to allow us to provide food in a safe and hygienic manner.

1. Roles and responsibilities

The governing board is responsible for:

- The provision of food for the school – ensuring pupils entitled to FSM and pupils who have requested school meals receive them.
- Ensuring the agreed food provision adheres to the food standards.
- Ensuring that, where possible, all pupils are able to eat one hot meal a day.
- Ensuring that drinking water is provided free of charge at all times in the classroom
- Providing free-to-use facilities to eat food, including accommodation, furniture and supervision, so pupils can eat their food in a safe and social environment.
- Ensuring that milk is provided free of charge to infants and pupils entitled to FSM.
- Ensuring a free piece of fruit or vegetable is provided outside of school lunch hours for pupils between four and six years old through the School Fruit and Vegetable Scheme.
- Ensuring that there is coordination across all catering services sought by the school, to guarantee compliance with school food standards.
- Ensuring that all pre-packaged foods available at the school provide full ingredient lists and allergen labelling.

The headteacher is responsible for:

- Organising food hygiene training, including on allergens, for all in-house kitchen staff, and refresher training.
- Ensuring any external catering companies have an up-to-date food hygiene certificate.
- Ensuring facilities are cleaned to the highest standards, conducting inspections where appropriate.
- Completing relevant risk assessments..

2. Exemptions to the school food regulations

The school food standards do not apply to food provided:

- At parties or celebrations marking religious or cultural occasions.
- At fundraising events.
- As rewards for achievements, good behaviour or effort.
- For using in teaching food preparation and cookery skills, including where the food prepared is served to pupils as part of a school lunch.
- On an occasional basis by parents or pupils.

3. Catering service standards

The cleanliness of the kitchen and serving areas will be kept to the highest standards. Food preparation and serving areas will be cleaned before, during and after preparation and cooking, in accordance with The Food Safety (General Food Hygiene) Regulations 1995 (as amended).

Kitchen staff will:

- Be suitably trained and will have an appropriate recognised qualification in food hygiene.
- Be clean and tidy in appearance and will be courteous to all pupils, staff and parents.
- Adhere to the service times, start and finish, agreed by the headteacher.

4. Food and drink safety

Food will only be consumed in the hall, on the playground and in classrooms with teachers' permission. Pupils will be instructed not to run when they are eating. Drinking water will be available from the classrooms and pupils will be permitted to refill water bottles throughout the day.

Staff will eat all hot food in the staff room away from pupils. If members of staff are drinking hot drinks, they will keep them out of pupils' reach. Hot drinks will be kept in insulated and anti-spill flasks with lids, e.g. travel mugs. Staff are permitted to have hot drinks in the classroom; however, they will place them at the back of a desk to minimise the risk of spillage. Staff on lunch duty can have hot drinks but they must adhere to the above points.

Electrical equipment, such as kettles, toasters, will be turned off when they are not in use. They will not be kept in classrooms, except in food technology lessons. If pupils are in a food technology lesson (or similar), they will be supervised by a member of staff and the staff member will demonstrate how to use the equipment. Appropriate PPE will be available for pupils who are handling hot food, drinks or equipment, e.g. oven gloves.

Pupils will not have access to the kitchen without supervision from a member of staff. Pupils will not be permitted to make their own drinks. When eating hot food, pupils will be instructed to use cutlery where possible and to ensure their food is cool enough before eating it.

A first aid kit will be located in each classroom.

The headteacher will conduct a risk assessment for hot food and drinks and staff will receive appropriate first aid training to handle burns etc.

We are a nut free school and this has been communicated to parents.

5. Kitchen safety

Kitchen staff will have a list of all allergens and will avoid using them within the menu.

The 14 allergens which are required to be declared are:

- Celery.
- Cereals containing gluten, e.g. barley and oats.
- Crustaceans, e.g. prawns.
- Eggs.
- Fish.
- Lupin.
- Milk.
- Molluscs.

- Mustard.
- Peanuts.
- Sesame.
- Soybeans.
- Sulphur dioxide and sulphite (where they are at a concentration of more than ten parts per million).
- Tree nuts, e.g. almonds, hazelnuts, walnuts.

Where meals include allergens or traces of allergens, staff will use labels to denote which of the 14 allergens are or may be present. Pre-packaged food sold at the school, whether made on-site or sourced from a supplier, will include a full ingredients list, with allergenic ingredients emphasised, e.g. in bold, italics or a different colour.

All kitchen staff will be suitably trained in allergy awareness, including how to respond to an allergy sufferer's questions. Training will be assessed regularly to ensure staff are competent and confident in dealing with allergens. Where staff are made aware of updates or ingredient changes by suppliers, this will be acted upon immediately.

The school will use reputable suppliers to source their produce, ensuring the quality of the food served is the same as they have promised to consumers. The school will not be misleading with the food that they serve, and the labelling will accurately represent what is being eaten. A record will be kept of where the school's produce comes from and the school will be prepared to produce this record on demand by an environmental health officer.

Kitchen staff will withdraw any produce that has gone past its 'use by' date. All kitchen staff will be trained in food safety as part of their food hygiene training. Staff will be aware of all the harmful bacteria that could cause serious illness if not treated and removed properly from food sources. In events where suppliers recall produce due to reports of harmful levels of bacteria in stock, staff will remove all traces of the product from the school and ensure the headteacher is notified. Parents will be informed of the outbreak, in line with the school's Infection Control Policy.

Kitchen staff will be aware of the 'danger zone' where microbial growth is stimulated – this is between the temperatures of 8°C and 63°C; kitchen staff will cook food until its core temperature has reached 70°C and remains that temperature for two minutes to minimise the risk of harmful bacteria being present in food.

Kitchen staff will have an in-depth knowledge of the risks of cross contamination. Colour-coded chopping boards and corresponding knives will be used for food preparation. The school uses the following colour-coded board and knife system:

Colour of chopping board and knife	Food group
Red	Raw meat
Yellow	Cooked meat/fish
Green	Salads and fruit

White	Bakery and dairy
Brown	Vegetables
Blue	Raw fish

6. Environmental health inspections

The head cook will be the key contact for the environmental health officer from the LA – being responsible for implementing any recommendations made to them.

The school will record the following information in an environmental health log book:

- Any identified hazards, e.g. a fridge running at a 6°C
- How hazards were avoided, removed or reduced, e.g. turning the temperature of the fridge down
- How any problems are rectified, e.g. reviewing the fridge's temperature every **15** minutes
- How plans are checked for effectivity

The head cook will ensure all the necessary documentation is readily available for inspection for the environmental health officer, including their food hygiene plan and food hygiene record.

The school will have their food hygiene rating sticker in a visible location within the dining area or kitchen. If the school scores less than a five on their hygiene rating sticker, they will implement any recommendations made by the environmental health officer as a matter of top priority. After each environmental health inspection, the school will display their new food hygiene rating sticker in place of the old one, irrelevant of the score.

The school will receive a letter after an inspection with 'notices' – the school will comply with the notices with immediate effect.
