Year 3 - Snozzcubers

Wednesday 20th March 2024

Dear parents/ carers,

Thank you so much for coming to watch our Easter play. The children were absolutely amazing and we are so delighted we were able to share our performance with our families and our very special guest Bishop Sophie. The video of the play is now on the school website and I will upload the photos later today.

This week we will complete our learning of all the different topics for this term.

The spellings for this week are: **injection, potion, division, couple, money, imagination** and we will still have the spelling test on Friday.

In maths we will finish our topic about Mass and Capacity. We have now learnt all our times tables and will spend the rest of the year revising them and getting more confident in our recall. The focus of times table test on Friday will be all the times tables. Please encourage the children to practice at home as much as they can and use TT Rockstars.

Homework this week will be My Maths. It will be set on Thursday and needs to be completed by Monday 8th April.

Our timetable will remain the same after the Easter holidays and PE will still be on Wednesdays and Thursdays. Please make sure your child brings their PE kit to school.

Lots of children keep forgetting their PE kits and it is not safe or appropriate for them to do their PE in their uniform or keep using the spares.

Please continue reading at home with your child and sign their reading journal. **Reading diaries are checked every Monday so please make sure they are sent to school.** We will be holding a book club meeting in the summer term and the book we will be discussing is Roald Dahl's BFG so please encourage your child to read it and they could also watch the movie. Roald Dahl is our class author and BFG will also be one of our summer term texts in literacy.

Our creative curriculum topics for the next term will be Ancient Greeks in history, plants and growing in science and the trinity in RE. We will be growing some plants at school but if you have an opportunity to grow something at home I am sure the children would really love it and it would be a great learning experience for them.

Thank you for your support and I hope you have a wonderful Easter break.

Mrs Cooper
