8th April 2024

Our new enquiry question for this half term is

'Where do different animals live?'

We will be finding out about pets at home, farm animals, sea animals and wild/jungle animals.

We will be learning about pet animals this week by using information books, story books and the Smartboard. Our role play area will be turning into a vet's surgery.

Please could your child bring in a photograph of their pet to show and talk about throughout this week. It will also be used when the children paint pictures of their pets.

Many thanks,

Mrs. Terrell
