Dear Parents – Welcome back

As we settle into the rhythm of our new academic year, I am delighted to share with you the wonderful start our pupils have made to this term. It has been truly heartwarming to witness the enthusiasm and dedication they have brought to their learning journey.

Our pupils have embraced the new term with remarkable energy and commitment. They have been working exceptionally hard across all areas of the curriculum,

demonstrating the very best of what it means to be a member of our school community. Their behaviour has been exemplary, with each child showing a clear understanding of our school rules and the importance of creating a positive learning environment for everyone.

What has particularly impressed me is how beautifully our pupils have welcomed their new teachers and

how eager they have been to showcase their talents and abilities. They are truly proving themselves to be the superstars we know them to be.

I will be sending home our comprehensive list of maths musts for each year group. These carefully curated lists outline some of the mathematical knowledge and skills that your child needs to master during their current year group. This resource has been designed to support you in understanding some of the key learning objectives and to help you support your child's mathematical development at home. We believe that when families and school work together, our pupils achieve their very best outcomes.

I would like to take this opportunity to remind all parents and carers about our important safeguarding procedures. For the safety and security of all our pupils and staff, we ask that parents do not enter the school building without first signing in at our reception desk. This procedure is a vital part of our safeguarding protocols and helps us maintain the secure environment that our pupils deserve. We appreciate

your understanding and cooperation with this essential requirement.
