

The Smartest Giants in Tankersley

20 th October 2025

Dear Parents/Carers,

This week our English will be linked to our science topic. The children will be describing what they see and hear on their autumn walk We will be practising our sentence writing and learning how to form our letters.

In Maths, we will be continuing our learning of addition. We will look at the different fact families. For example, $5+2=7$, $2+5=7$, $7=5+2$ and $7=2+5$. The children will also investigate different ways to partition 6 and 7.

In our creative curriculum we will be continuing our learning on the seasons and the changes that take place. We will begin to complete our weather diary recording the temperature and rainfall. In computing, we will be creating pictures and text and learning to save and print our work. In history we will be ordering events of space travel on a timeline.

Just a reminder that the trip money for our visit to The Old Classroom needs to be returned as our visit is after the half term break.

It has been wonderful getting to know the children this half term. We have been very busy and the children have worked so hard.

Mrs Beevor and Miss Bennison
