

The Smartest Giants in Tankersley

24th November 2025

Dear Parents/Carers,

The children had a wonderful trip to The Old Classroom. They were fabulous in their role as a Victorian child and immersed themselves in the experience. Please take a look on X for some amazing photographs.

This week in English, the children will learn what a verb is and use them in their writing. They will also start to plan their adventure story linked to our class text *Stanley's Stick*.

In Maths, we will continue our learning of subtraction and look at how we can represent this on a bar model. We will also learn how to solve addition and subtraction number stories.

In history, we will learn some key facts about Queen Victoria and understand how things changed during The Victorian era. In computing, we will be exploring purple mash and developing our keyboard and touch pad skills. In RE the children will be thinking about the story of Jesus' birth. In Music, we will be learning our Nativity songs.

If you have any concerns please come and see us and we will be happy to help.

Mrs Beevor and Miss Bennison
