# Tankersley St. Peter's Primary School

## Welcome Back Everyone!

What a bustling week we've had at our school! I'm delighted to share the exciting developments and remarkable achievements that have been unfolding within our walls.

The weather has been kind to us, with no snow disrupting our learning—though I'm keeping a watchful eye on the forecast to ensure our pupils' safety and continuity of education. Our sporting teams have been nothing short of phenomenal this week. .

*Guide me in your  
truth and teach me,  
for you are God, my  
Saviour and my hope  
is in you all day long.*

Our Y5/Y6 mixed football team has secured a place in the upcoming finals, demonstrating remarkable teamwork and skill. Similarly, our Y5/Y6 netball team will be competing at the EIS finals in February, and our athletics team is also preparing for their final competition next week

Our younger pupils have been equally impressive. The Shining Stars class captivated me with their sensory exploration of an ice tray, using ambitious vocabulary to describe their observations. Their curiosity and keen observational skills were truly remarkable. Meanwhile, our Y4 pupils have been immersed in a creative journey, painting stunning Egyptian river scenes as part of their writing unit. Their attention to detail in capturing the perfect shades of blue for the Nile, and the intricate colours of sand and pyramids, was extraordinary.

## Dates for your diary

**21.1.26 Emotional resilience for parents workshop**

**22.1.26 Athletics final**

**23.1.26 Football final**

**28.1.26 Heights and weights**

Update  
I'm particularly excited to announce an upcoming emotional resilience workshop for parents on 21.1.26, running from 3:30-5:30pm. This is an invaluable opportunity to support our pupils' well-being. Parents can secure their place using the following link:

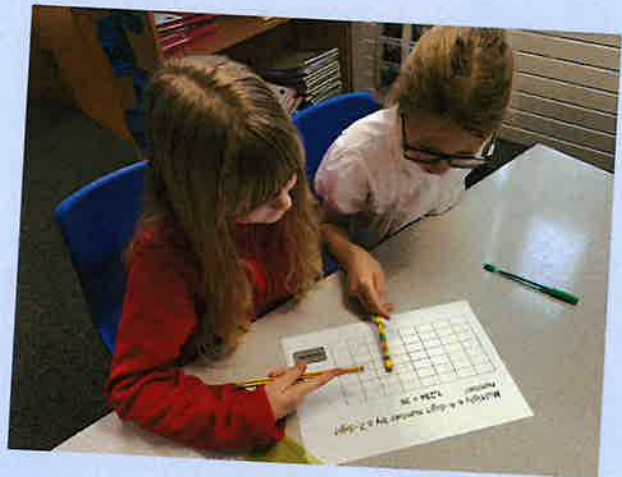

<https://forms.office.com/e/j6NgPNcWpt>

## More news from the classroom

Y6 have produced some exceptional writing inspired by Macbeth. The depth of their vocabulary and the marked improvement in their handwriting have been a source of immense pride. I thoroughly enjoyed reading their pieces and encourage them to continue their excellent progress.

Our Y5 mathematicians have been tackling complex mathematical challenges, learning to multiply 4-digit numbers by 2-digit numbers—a skill that requires concentration and precision.

Hello all, this weekend I will be trying to clean the mess left by my 21 year old. Apparently, he has cleaned his room - if I showed you the picture of the clean room you would be horrified!! I am actually thinking about getting a hazmat suit for my own safety. If I am not back Monday, please send a rescue squad.
