

Nursery Newsletter 20th April 2026

This week we will be continuing to find out about pet animals. Our role play area is now a vet surgery!
We would love to meet an unusual pet. If anyone has a pet animal at home, who would be willing to come into nursery and meet the Hungry Caterpillars please have a word with me!

We will continue to show and talk about our pets using photos. They are also being used for observational painting. Thank you for sending photos into nursery. If you are having problems printing pictures please email them to me and I will print them at school.
