

The Smartest Giants in Tankersley

5th May 2026

Dear Parents/Carers,

This week in English, the children will be continuing to write their own Jack and the Beanstalk stories. We can't wait to read them!

In Maths, children will be recognising heavier and lighter and measuring the mass of objects. They will then move onto measuring capacity and comparing the volume.

In Science, we be learning about the different parts of a plant and observing our sunflower seeds grow. In RE, we will be looking at some of the key stories in the Gospels and thinking about what these stories mean to Christians. In computing, we will be continuing our learning about algorithms.

Just a little reminder that it is the National Phonics screening test after the half term break. Please could you make sure that you are reading regularly with your child and practising the sound cards. We also send out weekly phonics videos for the children to watch.

If you have any concerns please come and see us and we will be happy to help.

Mrs Beevor and Miss Bennison
