Parents and Carers,

SATs Week – A Huge Well Done to Year 6!

This week, our Year 6 children completed their SATs tests and we could not be prouder of them. Every single child showed resilience, determination and a fantastic attitude throughout the week. They approached each test calmly and maturely and truly demonstrated how much progress they have made this year.

The children worked incredibly hard during revision sessions and gave their absolute best effort in Reading, Grammar, Maths Arithmetic and Reasoning. Most importantly, they supported one another brilliantly and continued to show excellent behaviour and positivity.

We would also like to thank all parents and carers for your continued support at home. Your encouragement has made a huge difference and helped the children feel confident and prepared.

Homework and Reading

Homework this week will be light to allow the children time to relax after their hard work during SATs week.

Reading diaries should still be brought into school every day so staff can continue to monitor reading progress. Children should continue reading at home at least three times each week.

PE

PE will continue every Monday and Friday. Please ensure children arrive in the correct PE kit.
